

Achieving the Cutting-edge —

SEKISUI
Sekisui Chemical
Full of Surprises

Atmospheric-Pressure
Plasma Processing Equipment

Compact experimental equipment type

Semi-automatic type specialized
for use in experiments

Features & Equipment specifications

1

Compact equipment

Treats up to A4-size sheets

2

Can be used for various treatments

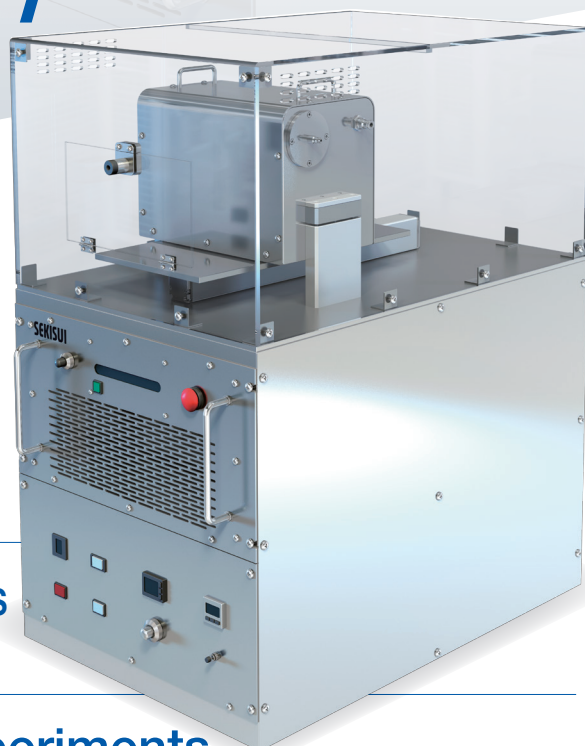

Choice of remote or direct treatment

3

Specialized for use in experiments

Simple semi-automatic type

Sizes handled
up to **A4**

Utility

Power, Treatment gas (N₂, CDA), Exhaust, Cooling water

*Please inquire with us for sizes larger than A4

Applications

Usage: Increases wettability of small substrates,
improves adhesion, reforms surface
